Screenshot Hasil Kerja :
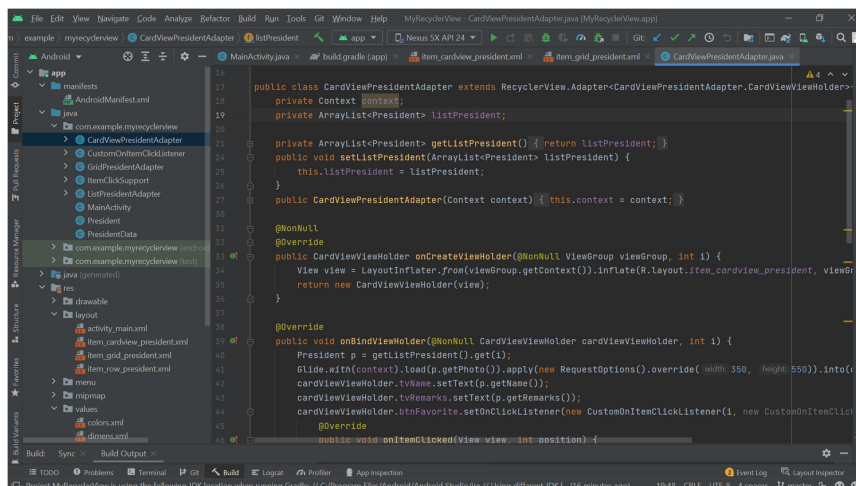

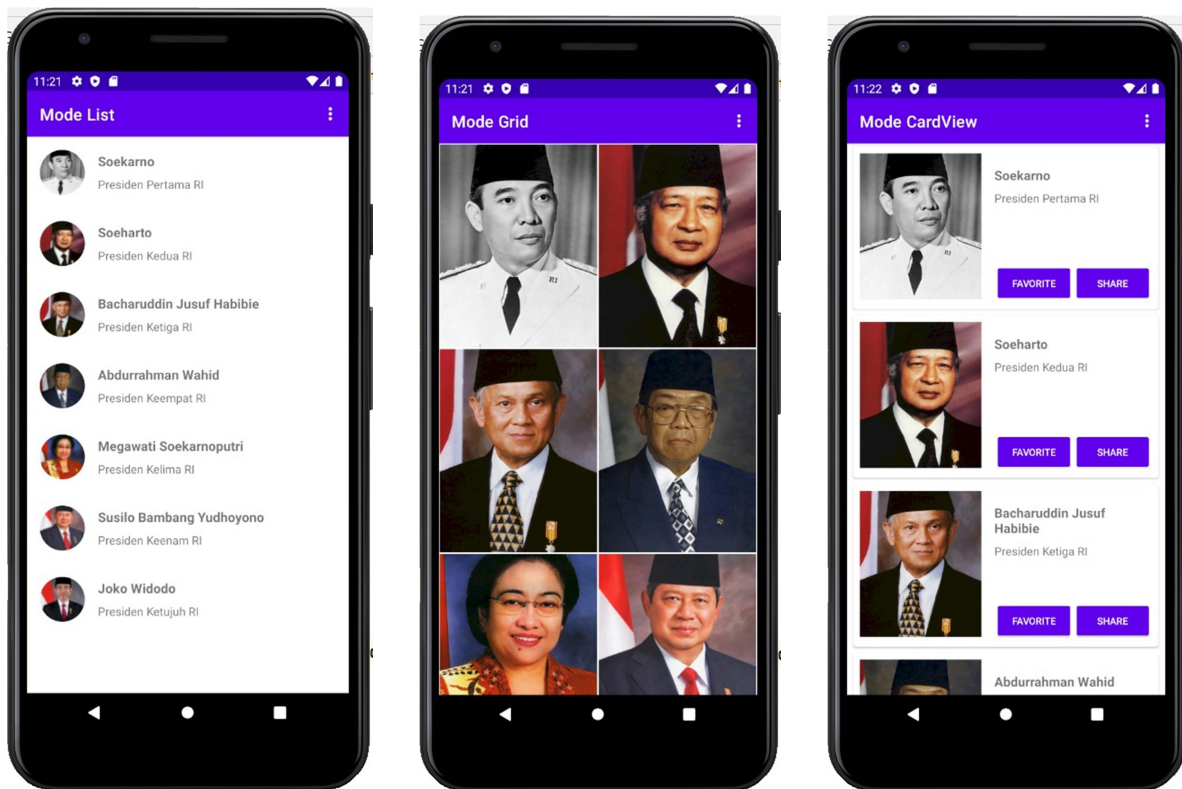

```java
package com.example.myrecyclerview;

import ...

public class GridPresidentAdapter extends RecyclerView.Adapter<GridPresidentAdapter.GridViewHolder> {
    private Context context;
    private ArrayList<President> listPresident;

    public GridPresidentAdapter(Context context) { this.context = context; }

    public ArrayList<President> getListPresident() { return listPresident; }

    public void setListPresident(ArrayList<President> listPresident) {
        this.listPresident = listPresident;
    }

    @NonNull
    @Override
    public GridViewHolder onCreateViewHolder(@NonNull ViewGroup parent, int viewType) {
        View view = LayoutInflater.from(parent.getContext()).inflate(R.layout.item_grid_president, parent, attach
        return new GridViewHolder(view);
    }

    @Override
    public void onBindViewHolder(@NonNull GridViewHolder holder, int position) {
        Glide.with(context).load(getListPresident().get(position).getPhoto()).apply(new RequestOptions().overri
    }
}
```

```java
package com.example.myrecyclerview;

import ...

public class ListPresidentAdapter extends RecyclerView.Adapter<ListPresidentAdapter.CategoryViewHolder> {
    private Context context;
    private ArrayList<President> listPresident;

    private ArrayList<President> getListPresident() { return listPresident; }
    void setListPresident(ArrayList<President> listPresident) {
        this.listPresident = listPresident;
    }
    ListPresidentAdapter(Context context) { this.context = context; }

    @NonNull
    @Override
    public CategoryViewHolder onCreateViewHolder(@NonNull ViewGroup viewGroup, int i) {
        View itemRow = LayoutInflater.from(viewGroup.getContext()).inflate(R.layout.item_row_president, viewGrou
        return new CategoryViewHolder(itemRow);
    }

    @Override
    public void onBindViewHolder(@NonNull CategoryViewHolder categoryViewHolder, int position) {
        categoryViewHolder.tvName.setText(getListPresident().get(position).getName());
        categoryViewHolder.tvRemarks.setText(getListPresident().get(position).getRemarks());
        Glide.with(context).load(getListPresident().get(position).getPhoto()).apply(new RequestOptions().overri
    }
}
```
